SUMMARY

Software Engineer with 1+ years of experience developing scalable enterprise web applications using React.js, JavaScript, FastAPI, and PostgreSQL. Proficient in building responsive user interfaces, integrating RESTful APIs, optimizing application performance, and delivering secure, high-quality software solutions. Experienced in working with Spring Boot-based backend services through REST API integration in enterprise environments.

SKILLS

- **Programming Languages:** Java, Python, JavaScript, SQL, C
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** FastAPI, Django, Node.js, Express.js
- **API & Authentication:** RESTful APIs, JWT Authentication, Swagger/OpenAPI
- **Databases:** PostgreSQL, MongoDB
- **Developer Tools:** Git, GitHub, Docker, Docker Compose, Nginx, Postman, VS Code, Vite, npm, pgAdmin, MongoDB Compass, Chrome DevTools, ESLint

WORK EXPERIENCE

E-Vision India Private Limited

Sept 2024 – Mar 2026

Software Developer

New Delhi, India

- Developed enterprise-grade **Video Management System (VMS)** applications using **React.js**, **Tailwind CSS**, and modern **JavaScript (ES6+)** for real-time surveillance solutions.
- Built core modules including **Live View**, **Playback**, **Dashboard**, **Device Management**, and **AI Analytics**, delivering responsive and scalable user interfaces.
- Integrated React.js frontend with **Spring Boot REST APIs** for live streaming, device management, event monitoring, and alert notifications.
- Developed reusable React components, optimized application performance, and collaborated with backend and QA teams to deliver production-ready features.

Brightcode Software Services Pvt. Ltd.

May 2023 – June 2023

Python Backend Developer Intern

Ranchi, India

- Developed and maintained backend features using **Python**, **Django**, and **PostgreSQL**.
- Implemented Django ORM, authentication, form handling, and admin panel functionality.
- **Technologies:** Python, Django, PostgreSQL, HTML, CSS, JavaScript, Bootstrap.

EDUCATION

RVS College of Engineering and Technology

OCT 2020 – AUG 2024

Bachelor of Technology in Computer Science Engineering

CGPA: 8.03/10

Doon Public School, Dhanbad

MAY 2018 – MAY 2020

Intermediate

60%

PROJECTS

Enterprise Daily Diary Tasking (DPDDT) — Professional Project

- Designed and developed a secure workflow automation platform for the **Delhi Police Daily Diary (DD)** tasking system, replacing manual processes with a centralized digital solution.
- Implemented **Role-Based Access Control (RBAC)** for Admin, DCP, ACP, Police Stations, and Officers, enabling secure task assignment, progress tracking, and report generation.
- Developed scalable **FastAPI** REST APIs with **PostgreSQL**, **SQLAlchemy**, and **JWT Authentication** to support workflow automation and secure access.
- **Tech Stack:** Python, FastAPI, PostgreSQL, SQLAlchemy, JWT Authentication, HTML, CSS, JavaScript.

Pathology Management System (Web Application) [\[GitHub\]](#)

- Developed a full-stack **Pathology Management System** using **React.js**, **Node.js**, **Express.js**, and **MongoDB** for patient registration, test management, billing, and report generation.
- Built responsive user interfaces, integrated RESTful APIs, and automated PDF report generation using **HTML2Canvas** and **JSPDF**.
- Implemented **Twilio API** for SMS notifications and optimized MongoDB data models for efficient data management.

CERTIFICATIONS

- Coding Ninjas – Basic Java with Data Structures and Algorithms.
